10/7/91

Dear Harry,

Thanks for your 10/5.

I think, for whatever my opinion can mean to you, that it is impossible for there to have been bullets in JFK's body that were removed at any time at Bethesda. I'm not taking time to explain why. But you should be asking yourself questions before you get immersed in what has little prospect of producing anything worthwhile.

I have no interest in making a target of you or for that matter of Rick and will make no such use of the Paine tape. My sole interest was that I'd been told he badmouthed me. Maybe my mind wandered while listening to it, and her voice was close to inaudible to me, but I heard nothing like that or any mention of me.

I've again spoken to David, who told me Rick denied everything, and he said he'll speak to Rick again.

I told him about Rick giving Lifton and transcript of your O'Connor interview and of O'Connor's protest over it when he got a copy from Lifton. This was to let Rick know that I know he was working for Lifton.

Thanks for your good wishes,

A handwritten signature in cursive script, appearing to read "Harold".
